

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

A CHRONOLOGICAL INDEX

Some of
the Chief
Events
in the
Foreign
Intercourse
of Korea

From the
Beginning
of the
Christian Era
to the
Twentieth
Century.

COMPILED BY
FLORANCE N. ALLEN
1901

To anyone who may chance to look through this index consecutively, it will be readily apparent how large a part missionaries have had in opening up the country, especially those of the Catholic Church, whose history is written in the blood of martyrs. I have therefore, carefully looked up the statistics of mission work with the view of giving the number of adherents to the Christian Churches at the end of the nineteenth century. The following is the result:—

	Catechumens or Members.	Probationers.
The Catholic Mission (of Paris).	42,441	over 7,000
The Greek Church of Russia,	16	
(just started)		
The Church of England, "under"	400	
The Protestant Denominations of the United States, Canada and Australia.	5,047	<u>17,935</u>
Totals,	47,904	24,935

Or a total following of 72,839, which I believe does not include infants and young children.

I have endeavored to secure correctness in dates and facts; much has been necessarily sacrificed to brevity. I ask the indulgence of my friends if I have seemed to offend in mentioning any matter too briefly, or at all. The record is meant to be entirely impersonal and inoffensive.*

HORACE N. ALLEN.

Seoul, Korea,

April, 1901.

* NOTE: I could not mention by name all the numerous foreigners who have come to Korea in later years. I had to content myself with mentioning only the most distinguished travellers, and those whose coming was of public interest or for some public purpose, or in connection with a Government. I have confined my mention of missionary arrivals to the first comers in connection with each mission.
